

PROFESSIONAL LICENSURE AND CERTIFICATION DISCLOSURE

Lamar State College Orange

Lamar State College Orange (LSCO) offers courses, associate degree, and certificate programs that may lead to professional licensure and/or certification in the State of Texas. Professional licensure/certification requirements vary from state to state, which may affect a student's ability to apply for professional license or certification upon completion of a program. The U.S. Department of Education regulation, 34 CFR 668.43(a)(5)(v), requires that an institution disclose whether the program will fulfill educational requirements for licensure or certification for each state or whether the college has not made such a determination for each state.

If you currently live in a state other than Texas or intent to move to a state other than Texas and use the education completed at Lamar State College Orange to sit for such an exam, be aware there may be additional requirements. We recommend students contact the appropriate state licensing agency in their state or the state where they intend to work to seek the most up to date information about state licensure/certification requirements before beginning any program.

Please view LSCO's applicable programs in the Licensure and Certification Disclosure Table below. For questions regarding academic compliance related to a specific educational program, please contact that program's department chair or dean.

LICENSURE AND CERTIFICATION DISCLOSURE TABLE

Lamar State College Orange

Program & Required Certification/Licensure	Relevant Awards	MEETS Education Requirements for Licensure or Certification in these states:	DOES NOT MEET Educational Requirements for Licensure or Certification in these states:	LSCO has not made a determination that the curriculum meets Education Requirements for Licensure or Certification in these states:
