Office of the President

November 20, 2019

The Honorable Greg Abbott  
Governor of Texas

The Honorable Glenn Hegar  
Comptroller of Public Accounts

John McGeady, Assistant Director  
Legislative Budget Board

Lisa Collier  
First Assistant State Auditor

To Agency Heads Addressed:

We are pleased to submit the Annual Financial Report (AFR) of Lamar State College – Orange for the fiscal year ended August 31, 2019, in compliance with Texas Government Code Annotated, §2101.011, and in accordance with the requirements established by the Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying AFR to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report (CAFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Mary Wickland, Vice President for Finance and Operations at 409-882-3372.

Sincerely,

Thomas Johnson, Ed.D.  
President

**LAMAR STATE COLLEGE-ORANGE**

**NOTES TO THE FINANCIAL STATEMENTS**

**AUGUST 31, 2019 and 2018**

<b>Note 1: Summary of Significant Accounting Policies</b>
---

**Entity**

Lamar State College - Orange is a state funded two-year Institution of Higher Education of the State of Texas, and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for State Institutions of Higher Education.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No 34. *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

**Fund Structure**

The accompanying financial statements are presented on the basis of funds. A fund is considered a separate accounting entity. The fund designation for institutions of higher education is a Business Type Activity within the Proprietary Fund Type.

**Proprietary Funds**

**Business Type Activity**

Business type funds are used for activities that are financed through the charging of fees and sales for goods or services to the ultimate user. Institutions of higher education are required to report their financial activities as business type; because, the predominance of their funding comes through charges to students, sales of goods and services, and grant revenues.

**Component Units**

The fund types of the individual discrete component units are available from the component units' separately issued financial statements. Additional information about component units can be found in Note 19.

**Basis of Accounting**

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

## UNAUDITED

Business activity type funds (proprietary funds) are accounted for using the full accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary funds principal ongoing operations. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

### **Budget and Budgetary Accounting**

The operating budget is prepared annually and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

### **Assets, Liabilities, and Fund Balances/Net Position**

#### **ASSETS**

##### Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

##### Securities Lending Collateral

Investments are stated at fair value in all funds except pension trust funds in accordance with **GASB Statement 31-Accounting and Financial Reporting for Certain Investments and for External Investment Pools**.

For pension trust funds, investments are required to be reported at fair value using the accrual basis of accounting in accordance with **GASB Statement 25 - Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans**. Securities lent are reported as assets on the Statement of Net Position. The costs of securities lending transactions are reported as expenditures or expenses in the Operating Statement. These costs are reported at gross.

##### Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements. Assets held in reserve for guaranteed student loan defaults are also included.

## UNAUDITED

### Inventories and Prepaid Items

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in the proprietary fund types. The cost of these items is expensed when the items are consumed.

### Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year should be capitalized. These assets are capitalized at cost or, if not purchased, at appraised fair value as of the date of acquisition. Depreciation is reported on all "exhaustible" assets. "Inexhaustible" assets such as works of art and historical treasures are not depreciated. Road and highway infrastructure is reported on the modified basis. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

All capital assets acquired by proprietary funds or trust funds are reported at cost or estimated historical cost if actual historical is not available. Donated assets are reported at fair value on the acquisition date. Depreciation is charged to operations over the estimated useful life of each asset using the straight-line method.

### Current Receivables - Other

The disaggregation of other receivables as reported in the financial statements is shown in Note 24, "Disaggregation of Receivables and Payables Balances." Other receivables include year-end accruals not included in any other receivable category. This account can appear in governmental and proprietary fund types.

## **LIABILITIES**

### Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the Statement of Net Position date for which payment is pending.

### Other Payables – Current and Noncurrent

Other payables are the accrual at year-end of expenditure transactions not included in any of the other payable descriptions.

## UNAUDITED

### Employees' Compensable Leave Balances

Employees' Compensable Leave Balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the Statement of Net Position. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid.

### Capital Lease Obligations

Capital Lease Obligations represent the liability for future lease payments under capital lease contracts contingent upon the appropriation of funding by the Legislature. Liabilities are reported separately as either current or noncurrent in the Statement of Net Position.

### Bonds Payable - General Obligation Bonds and Revenue Bonds

General Obligation and Revenue bonds are generally accounted for in the proprietary funds by institutions of higher education. The bonds payable are reported at par less unamortized discount or plus unamortized premium. Interest expense is reported on the accrual basis, with amortization of discount or premium. Payables are reported separately as either current or noncurrent in the Statement of Net Position. Bond proceeds and principal payments are reported in the Statement of Cash Flows.

## **NET POSITION**

The difference between fund assets and liabilities is "Net Position" on the government-wide, proprietary and fiduciary fund statements, and the "Fund Balance" is the difference between fund assets and liabilities on the governmental fund statements.

### Reservation of Fund Balance

Fund Balances for governmental funds are classified as either reserved or unreserved in the fund financial statements. Reservations are legally restricted to a specific future use or not available for expenditures.

### Reserved for Encumbrances

This represents commitments of the value of contracts awarded or assets ordered prior to year-end but not received as of that date. Encumbrances are not included with expenditures or liabilities. They represent current resources designated for specific expenditures in subsequent operating periods.

### Reserve for Consumable Inventories

This represents the amount of supplies, postage and prepaid assets to be used in the next fiscal year.

## UNAUDITED

### Unreserved/Undesignated

This represents the unappropriated balance at year-end.

### Invested in Capital Assets, Net of Related Debt

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

### Restricted Net Assets

Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

### Unrestricted Net Assets

Unrestricted net assets consist of net assets which do not meet the definition of the two *preceding* categories. Unrestricted net assets often have constraints on resources which are imposed by management, but can be removed or modified.

## **INTERFUND TRANSACTIONS AND BALANCES**

Lamar State College Orange has the following types of transactions among funds:

- (1) Transfers: Legally required transfers that are reported when incurred as “Transfers In” by the recipient fund and as “Transfers Out” by the disbursing fund.
- (2) Reimbursements: Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.
- (3) Interfund receivables and payables: Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter it is classified as “Current”, repayment for two (or more) years is classified as “Non-Current”.
- (4) Interfund Sales and Purchases: Charges or collections for services rendered by one fund to another that are recorded as revenues of the recipient fund and expenditures or expenses of the disbursing fund.

The composition of Lamar State College - Orange’s Interfund activities is presented in Note 12.

**Note 9: Defined Benefit Pension Plans and Defined Contribution Plans**

Teacher Retirement System of Texas (TRS)

Lamar State College Orange participates in a cost-sharing, multi-employer, defined benefit pension plan administered by TRS. The plan provides retirement, disability annuities and death and survivor benefits. The benefit and contribution provisions of the TRS Plan are authorized by state law and may be amended by the Legislature.

All College personnel employed in a TRS-eligible position on a one-half time or greater basis that is projected to last for 4½ months or more are eligible for membership in the TRS retirement plan. Students employed in positions that require student status as a condition of employment do not participate.

The pension benefits formulas are based on members' average annual compensation and years of service credit. The standard annuity is 2.3% of the average of the five highest annual salaries multiplied by years of service credit. For grandfathered employees who were hired on or before August 31, 2005 and meet certain criteria, the standard annuity is based on the average of the three highest annual salaries. The plan does not provide automatic post-employment benefit changes, including automatic cost of living adjustments.

Normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is

UNAUDITED

less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule.

TRS is primarily funded through State and employee contributions. TRS contribution rates are established by the State Legislature. Contributions by employees were 7.7 percent of gross earnings for 2019 and 2018, while employer contributions were 6.8 percent of the participants' gross earnings for 2019 and 2018. Depending upon the source of funding for a participant's salary, the College may be required to make contributions in lieu of the State. Contributions to TRS for the year ended August 31, 2019 and 2018, attributable to the College's portion of the pension obligation were as follows:

	<b>Year ended August 31, 2019</b>
Employee Contributions	\$ 432,730.15
Employer Contributions	385,151.79
<b>Total</b>	<b>\$ 817,881.94</b>

	<b>Year ended August 31, 2018</b>
Employee Contributions	\$ 403,433.13
Employer Contributions	356,278.57
<b>Total</b>	<b>\$ 759,711.70</b>

TRS currently does not separately account for each of its component government agencies because TRS itself bears sole responsibility for retirement commitments beyond contributions fixed by the State Legislature. Further information regarding actuarial assumptions and conclusions, together with audited

UNAUDITED

financial statements are included in TRS's annual financial report, which may be found on the TRS website at [www.trs.state.gov](http://www.trs.state.gov).

In accordance with the Reporting Requirements for Annual Financial Reports of State Agencies and Universities (Reporting Requirements) promulgated by the Texas Comptroller of Public Accounts, the Texas State University System has implemented GASB Statement No. 68, Accounting and Financial Reporting for Pensions, and GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date, which includes the net pension expense, net pension liability, and related deferred inflows and outflows. Under the Reporting Requirements, employees of the College are treated as employees of the System for GASB 68 reporting; therefore, these financial statements neither record nor disclose the net pension expense, net pension liability, or related deferred inflows and outflows attributable to the College. Recording and disclosure of this information occurs for the System as a whole in the consolidated Annual Financial Report of the Texas State University System (TSUS). The State of Texas and TSUS share responsibility for funding their proportional shares of the obligations of this plan.

Optional Retirement Program (ORP)

The state has also established an optional retirement program (ORP) for institutions of higher education. Participation in ORP is in lieu of participating in the Teacher Retirement System and is available to certain eligible employees. Employees eligible for participation in ORP are defined in Texas Administrative Code § 25.4. ORP provides for the purchase of annuity contracts and mutual funds. Participants are vested in the employer contributions after one year and one day of service. Depending upon the source of funding for the employee's compensation, the College may be required to make the employer contributions in lieu of the State.

The State provides an option for a local supplement (up to 1.9%) on top of the State base rate. Participant contributions were made at a rate of 6.65% of annual compensation during FY 2019 and FY 2018. Employer contributions were made at the base rate of 6.6% unless the employee was grandfathered (i.e. the employee was contributing on August 31, 1995); in the case of grandfathered employees, the rate of the employer contributions was 8.5% of annual compensation.

The amounts contributed by plan members and by Lamar State College Orange (Employer) for the fiscal year ended August 31, 2019 and 2018, respectively are:

UNAUDITED

	Year Ended August 31, 2019
Member Contributions	\$ 145,247.00
Employer Contributions	156,635.00
TOTALS	<u>\$ 301,882.00</u>
	Year Ended August 31, 2018
Member Contributions	\$ 180,655.00
Employer Contributions	201,170.00
TOTALS	<u>\$ 381,825.00</u>

Since contributions are invested in individual annuity contracts, neither the State nor Lamar State College Orange have any liability for this program.

**Note 13: Continuance Subject to Review**

Lamar State College - Orange is not subject to a review of continuance.

**Note 14: Adjustments to Fund Balances and Net Position**

Lamar State College – Orange had no adjustments to Fund Balances or Net Position to report as of August 31, 2019. However, there was a restatement of Fund Balance and Net Position to report as of 2018 for an adjustment to Investment in Plant of \$16,392.40, respectively.

**Note 15: Contingencies and Commitments**

At August 31, 2019 and 2018 no lawsuits and claims involving Lamar State College-Orange were pending. However, for Hurricane Ike damages incurred by the campus in 2008, there is a probable repayment to the Texas Division of Emergency Management (TDEM) in the amount of \$1,347,872.36 which has been accrued. Lamar State College – Orange has an outstanding appeal with the Federal Emergency Management Agency (FEMA).

**Note 17: Risk Management**

Unemployment Compensation: The State provides coverage for unemployment benefits for college employees from appropriations made to the Texas Workforce Commission (TWC). The current General Appropriations Act provides that the College must reimburse the General Revenue Fund from college appropriations 50% of the unemployment benefits paid for State funded positions and 100% of the cost for unemployment compensation for any positions paid from funds held in local bank accounts and local funds held in the State Treasury. The Comptroller of Public Accounts determines the proportionate amount to be reimbursed from each appropriated fund type. The unemployment benefit plan is on a pay-as-you go basis, in which no assets are set aside to be accumulated for the payment of claims. No material outstanding claims are pending at August 31, 2019 and 2018.

Workers' Compensation: The administration of the State's employee workers' compensation program is vested with the State Office of Risk Management (SORM). In accordance with H.B. No. 1203, 77th Legislature, SORM developed and imposed a formula-driven charge for workers' compensation costs upon participating agencies. The workers' compensation assessment is prepaid to SORM through an Interagency Contract for risk management services and workers' compensation coverage for its employees in compliance with TEX.LABOR CODE Chapter 412 and Chapter 501. The assessment paid during the fiscal year ended August 31, 2019 and 2018 amounted to \$11,136.90 and \$13,706.01, respectively.

UNAUDITED

The College is required by certain bond covenants and FEMA to carry Fire and Extended Coverage and Boiler insurance on buildings financed through the issuance of bonds using pledged Auxiliary Enterprise, Educational and General Funds and other Non-Educational and General Funds. The insurance protects the bondholders from a disruption to the revenue stream that is being utilized to make the bond interest and principal payments and the federal government for storm damage. No insurance claims were made during the fiscal year ended August 31, 2019 and 2018.

Texas Motor Vehicle Safety Responsibility Act requires that every non-governmental vehicle operated on a state highway be insured for minimum limits of liability in the amount of \$30,000/\$60,000 bodily injury and \$25,000 property damage. However, Lamar State College - Orange has chosen to carry liability insurance on their licensed vehicles in the amount of \$1,000,000 combined single liability amount. The coverage exceeds the extent of the waivers of state immunity in the Tort Claims Act.

Lamar State College – Orange is exposed to a variety of civil claims resulting from the performance of its duties. It is the College’s policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed.

Lamar State College – Orange assumes substantially all risks associated with tort and liability claims due to the performance of its duties. Currently there is no purchase of commercial insurance, nor is the College involved in any risk pool with other government entities for these risks.

The College’s liabilities are reported when it is both probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Liabilities are reevaluated periodically to consider current settlements, frequency of claims, past experience and economic factors. There were no significant reductions in insurance coverage in the past year and losses did not exceed funding arrangements during the past three years. There were no liabilities to report during the fiscal year ended August 31, 2019 and 2018, respectively.

**Note 18: Management’s Discussion and Analysis**

Management Discussion and Analysis is a required part of the basic financial statements. Management Discussion and Analysis is omitted because Lamar State College – Orange is reported in a consolidated format with Texas State University System which is reported as a component of the State of Texas. Management Discussion and Analysis as it relates to Texas State University System can be found in the State of Texas basic financial statements.
