90th Regular Session, Agency Submission, Version 1

Automated Budget and Evaluation System of Texas (ABEST)

787 Lamar State College - Orange

Rooted in the Golden Triangle along the Sabine River, Lamar State College Orange (LSCO) has been a vital catalyst for Southeast Texas' economic growth for more than 55 years. LSCO has strategically transformed from its initial campus footprint of an abandoned elementary school building in the fall of 1969 into a dynamic and progressive institution that delivers high-touch and personal instruction. During the 2025-2026 academic year, the College saw impressive enrollment gains, serving more than 5,800 credit students during both the fall 2025 and spring 2026 semesters.

Lamar State College Orange, a vital two-year institution within the Texas State University System, serves Southeast Texas by producing a highly skilled, adaptable workforce. Despite high inflation and economic uncertainty, the College empowers students to succeed by reducing barriers. We provide free mental health services, a campus food pantry and clothing closet, and expanded "earn while you learn" apprenticeships. Combined with affordable tuition, federal aid, and scholarships, these resources fueled record enrollment—doubling our technical program headcount and exceeding prior biennium contact hours.

Dedicated to student success and improving economic mobility, the College focuses on supporting regional workforce development, designing and providing customized industry training, and offering affordable academic pathways.

Regional Workforce Development: LSCO combats regional skill shortages by offering over 40 technical and vocational programs built in direct response to local industry needs. Our graduates fill critical vacancies in high-wage, high-demand sectors including Nursing, Industrial Technology, Information Technology, Logistics Management, Dental Assisting, Teaching, Paramedic, and Court Reporting.

Customized Industry Training: Through strategic non-credit programming, LSCO partners directly with major regional employers to deliver rapid, specialized upskilling. By offering essential certifications such as Class A and B CDL, Forklift Operation, Clinical Nurse Aide, Fiber Optics, and Information Technology Software Training, the College directly supports Texas industries in remaining competitive and compliant.

Affordable Academic Pathways: LSCO provides an accessible, cost-effective gateway to higher education. Our seamless academic transfer programs allow students to complete their lower-division coursework affordably before transitioning to four-year universities to earn bachelor's degrees, thereby reducing overall student debt and supporting state completion goals.

In its pursuit of supporting the Texas Higher Education's Coordinating Board's goals of ensuring that postsecondary education leads to meaningful outcomes and enhanced opportunities, the College has experienced record successes:

- Achieved the largest student body in LSCO history, with more than 5,800 students enrolled in Fall 2025 and approximately 5,900 students enrolled in Spring 2026.
- Increased from 3,613 students in Fall 2024 to nearly 5,800 in Fall 2025, demonstrating sustained and record-breaking enrollment momentum.
- Recorded approximately 70 percent Spring enrollment growth from Spring 2025 to Spring 2026, an uncommon upward trend for a spring semester following a record fall term.
- Expanded LSCO's academic portfolio significantly by adding more than 35 new programs since 2019, including 16 new programs in 2025 alone, to meet student interest and workforce demand.
- Strengthened high-demand pathways in Nursing, Criminal Justice Law Enforcement, Medical Assisting, Production Welding, Teacher Preparation, Welding, and other technical and workforce fields.
- Completed the new 55,000-square-foot Academic Building, providing modern classrooms, laboratories, and teaching technology to support student learning and faculty instruction.
- Renovated the historic First Baptist Church of Orange into the Student Success Center, creating a central hub for tutoring, advising, financial aid, admissions, career

coaching, mentoring, and other student support services.

- Launched and expanded the LSCO-Texas State University Gateway Program, a co-enrollment pathway that provides students with a seamless and affordable transition to Texas State University, with estimated first-year savings of approximately $6,600.
- Grew the Gateway Program from approximately 60 students in its first year to nearly 600 applications for the second year, with projected enrollment of 300 to 400 students for the 2026-2027 academic year.
- Continued expansion of dual credit programs, strengthening early college access and building regional and statewide pipelines for high school students to earn college credit while completing secondary education.
- Advanced statewide partnerships with Texas State University, the Texas Department of Criminal Justice, the Texas Juvenile Justice Department, and workforce organizations to create seamless transfer, upskilling, and access pathways for diverse and underserved populations.
- Maintained a student-centered learning environment with an average class size of 15, allowing students to receive meaningful faculty engagement and individualized support.
- Continued to support affordability through reduced cost barriers, institutional scholarships, affordable tuition and fees, and low-cost instructional materials such as the Gator Book Pack model.
- Received approval from the Texas Board of Nursing to offer a stand-alone Associate Degree Registered Nursing program and continued to support health care pathways that respond to critical regional workforce needs.
- Partnered with the Golden Triangle Federation of Advanced Manufacturing (FAME) Chapter to connect students with specialized training for rapidly evolving industry positions while pursuing two-year associate degrees.
- Invested in facilities, equipment, and teaching capacity that expand technical education, including mechatronics, electromechanical technology, industrial systems, welding, logistics, and related workforce programs.
- Continued to expand access through site locations and partnerships serving Hardin County, Polk County, Orange County, Southeast Texas, and students across the state.

We are also grateful for the Texas Legislature's continued commitment to workforce education, student opportunity, and the economic competitiveness of our state. The foundation established through House Bill 8 by the 88th Legislature, together with the 89th Legislature's passage of House Bill 120, has strengthened dual-credit access, career and technical education pathways, and opportunities for students to earn valuable postsecondary credentials aligned with workforce needs. LSCO is especially appreciative of the passage of House Bill 42, which meaningfully increased the Institute's annual Higher Education Fund appropriation and provides critical resources to address deferred maintenance, maintain aging facilities, and modernize the instructional laboratories and learning environments necessary to prepare students for high-demand careers.

The College is requesting three (3) new exceptional items.

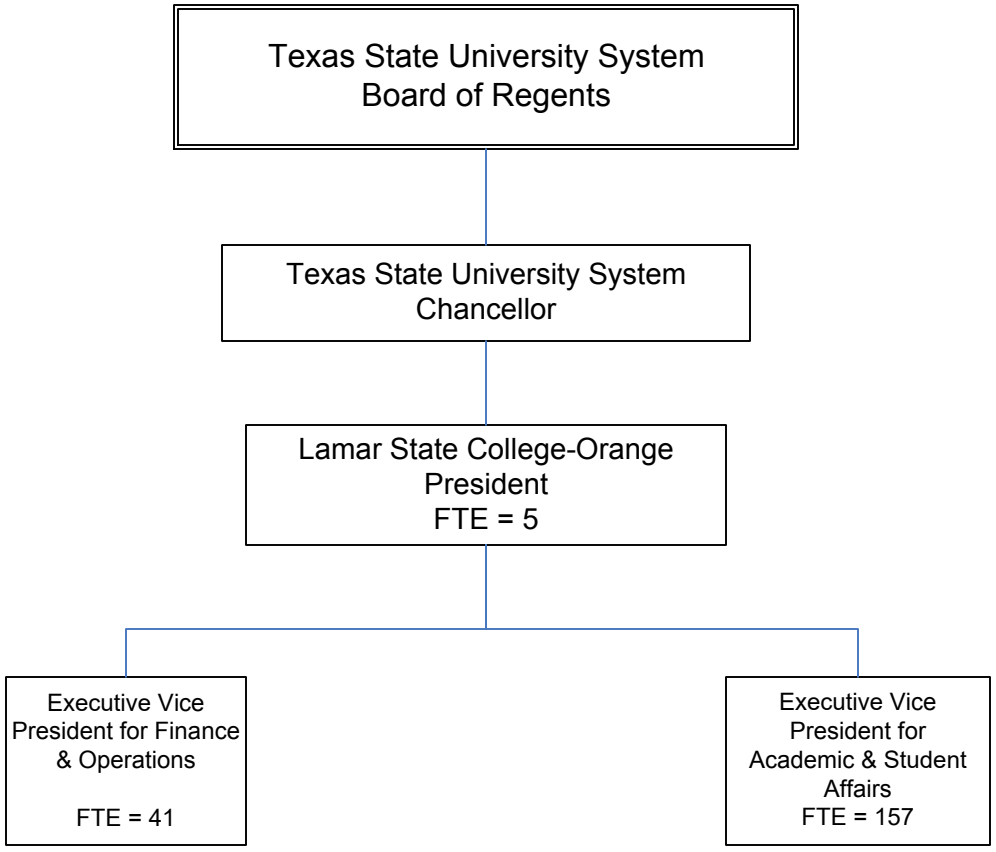

1. FORMULA FUNDING RATE INCREASE - $9.16 to $10.16. LSCO is appreciative of the continued formula funding support from the Texas Legislature. The Legislature's steadfast commitment to capital and operational funding to LSCO is paramount to providing low cost, high quality educational opportunities to our community. LSCO asked for an increase in our formula funding rate to reduce our reliance on tuition. The Legislature was able to fund our request over the last four sessions, bringing our instructional and administrative funding rate to $9.16. The additional funding through the instructional and administrative formula would allow the State colleges to not only maintain the tuition reduction for our current students as we fight inflationary factors but also position us to retain and attract qualified faculty with competitive wages. As LSCO addresses the challenges associated with a retiring workforce and the market-driven demand for qualified faculty, this continued support strategically positions LSCO to meet these challenges while advancing its mission.

2. TECHNICAL PROGRAM SUPPORT - Lamar State College Orange is requesting $1,500,000 ($750,000 per year) for program funding to support the development of

technical training programs in the College's newest site, Livingston, Texas. Located in a very rural area of Polk County and East Texas with unreliable access to internet services, LSCO will provide access to individuals seeking post-secondary educational opportunities who would otherwise be forced to commute more than 45 miles via single-lane country roads that are regularly subject to closure and detours created by construction repairs, accidents, and flooding. Labor market data reveals that a focus on postsecondary training in nursing and healthcare services, fabrication and manufacturing, criminal justice and public service industries will prepare Polk County residents for employment in high-wage and high-demand careers. Given that research reflects more than 60% of alumni from two-year Colleges remain in the geographical area and contribute an average of $81,000 more to local economies than the average high school graduate without college credits, investing in relevant and strategic technical program development will create very meaningful economic infusions in the rural and remote Livingston area that has a 27.5% poverty level compared with the 14% statewide level.

3. TECHNICAL CAREER TRAINING CENTER - Lamar State College Orange is requesting debt service of $12,900,000 ($6,450,000 per year) on a $75,000,000 Capital Construction Assistance Project (CCAP) for the development of a Technical Career Training Center in Orange County. The targeted occupations include carpenters, electricians, plumbers, HVAC technicians, and welders. Career pathways of the training center will focus on these high-wage, high-demand occupations for residents of Orange County and the surrounding areas. The center will house classrooms, faculty offices, and open laboratories fitted with state-of-the art equipment recommended by industry partners that will provide students with relevant training opportunities and preparation for industry based licensures and certifications that lead to employment upon graduation in critical and high-demand careers.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Infrastructure Support formula distributes funding associated with plant-related formulas and utilities. This formula is driven by the predicted square feet for universities' educational and general activities produced by the Coordinating Board Space Projection Model. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

CODE	DESCRIPTION	Exp 2025	Est 2026	Bud 2027	BL 2028	BL 2029

The mission of the Maritime – Able Bodied Seaman program is to serve the needs of the Maritime industry operating within the Sabine-Neches Waterway and adjacent offshore waters. The Sabine-Neches Waterway is the nation's fourth largest waterway and plays a critical role in transporting petrochemical and military resources. The program provides training for individuals seeking entry level and intermediate level employment in a high wage/high demand, local opportunity in the Maritime industry. The program is also a vital resource in Southeast Texas for professional development opportunities for current employees of local Maritime business and industry.

STRATEGY DESCRIPTION AND JUSTIFICATION:

Non-formula support item funding is used to supplement faculty salaries and other institutional operating costs for various vocational and technical training programs. This non-formula support item has assisted the institution in providing needed funding so the College can deliver necessary instruction, purchase equipment and support the needs of the new programs. A reduction in these funds will result in the reduction of class offerings, instructional equipment purchases, professional development for faculty, and scholarship aid to students.

DESCRIPTION / JUSTIFICATION:

Lamar State College Orange is requesting $1,500,000 ($750,000 per year) for program funding to support the development of technical training programs in the College's newest site, Livingston, Texas. Located in a very rural area of Polk County and East Texas with unreliable access to internet services, LSCO will provide access to individuals seeking post-secondary educational opportunities who would otherwise be forced to commute more than 45 miles via single-lane country roads that are regularly subject to closure and detours created by construction repairs, accidents, and flooding. Labor market data reveals that a focus on postsecondary training in nursing and healthcare services, fabrication and manufacturing, criminal justice and public service industries will prepare Polk County residents for employment in high-wage and high-demand careers. Given that research reflects more than 60% of alumni from two-year Colleges remain in the geographical area and contribute an average of $81,000 more to local economies than the average high school graduate without college credits, investing in relevant and strategic technical program development will create very meaningful economic infusions in the rural and remote Livingston area that has a 27.5% poverty level compared with the 14% statewide level.

EXTERNAL/INTERNAL FACTORS:

LSCO would be able to offer Technical Training Programs in areas of the state where the poverty levels are much higher than the statewide level.

	TOTAL, METHOD OF FINANCING	**$6,450,000**	**$6,450,000**

DESCRIPTION / JUSTIFICATION:

Lamar State College Orange is requesting debt service of $12,900,000 ($6,450,000 per year) on a $75,000,000 Capital Construction Assistance Project (CCAP) for the development of a Technical Career Training Center in Orange County. The targeted occupations include carpenters, electricians, plumbers, HVAC technicians, and welders. Career pathways of the training center will focus on these high-wage, high-demand occupations for residents of Orange County and the surrounding areas. The center will house classrooms, faculty offices, and open laboratories fitted with state-of-the art equipment recommended by industry partners that will provide students with relevant training opportunities and preparation for industry based licensures and certifications that lead to employment upon graduation in critical and high-demand careers.

EXTERNAL/INTERNAL FACTORS:

External factors affecting this strategy include the rise in costs of construction and skilled labor and inflation that can impact the debt service amount prior to securing the CCAP.

	Total Expenditures		**11.4%**		**$3,552,958**	**$31,188,406**		**27.3%**		**$7,007,301**	**$25,667,537**

B. Assessment of Attainment of HUB Procurement Goals

Attainment:

Agency exceeded one (1) and was close to two (2) of the applicable statewide HUB goals in 2024.
Agency exceeded one (1) and was close to two (2) of the applicable statewide HUB goals in 2025.
Overall, LSCO improved from previous reporting period.

Applicability:

Heavy Construction was not applicable to this agency's operations in 2024 and 2025.

Factors Affecting Attainment:

Lamar State College Orange has a limited number of service and professional certified HUB vendors in our region.

C. Good-Faith Efforts to Increase HUB Participation

Outreach Efforts and Mentor-Protégé Programs:

In both FY 2024 and FY 2025, LSCO conducted outreach efforts in order to increase the participation with HUB vendors by participating

in the Senator Royce West Spot Bid Fairs and by attending the local Golden Triangle Minority Business Council Forums.
Lamar State College Orange did not have a mentor-protégé program during this period.

Agency Code: **787** Agency: **Lamar State College - Orange**

HUB Program Staffing:

Executive Director Procurement Services served as the HUB Coordinator for LSCO for the period of FY2024 and FY2025. The HUB Coordinator met with HUB
vendors, completed HUB reporting, and participated in the statewide and regional HUB Expos.

Current and Future Good-Faith Efforts:

LSCO made the following efforts to improve HUB procurement goals per Texas Administrative Code Title 34, Chapter 20, Section 20.284

1. Developed a dedicated HUB Program Manager position to focus on HUB participation efforts
2. Established Mentor-Protégé guidelines as part of the HUB Program Manager responsibilities to foster relationships between prime contractors and VetHUBs.
3. Budget established for continued outreach efforts by attending small business expos .
4. Use CMBL to identify active Certified VetHUB vendors when seeking goods and services to be procured .

Project Description

Lamar State College Orange is requesting debt service of $12,900,000 ($6,450,000 per year) on a $75,000,000 Capital Construction Assistance Project (CCAP) for the development of a Technical Arts Training Center in Orange County. The targeted occupations include carpenters, electricians, plumbers, HVAC technicians, and welders. Career pathways of the training center will focus on these high-wage, high-demand occupations for residents of Orange County and the surrounding areas. The center will house classrooms, faculty offices, and open laboratories fitted with state-of-the art equipment recommended by industry partners that will provide students with relevant training opportunities.

Allied Health Programs

(1) Year Non-Formula Support Item First Funded:	2016
Year Non-Formula Support Item Established:	2016
Original Appropriation:	$577,000

(2) Mission:

The mission of this non-formula support item is to expand access to students in rural areas of Southeast Texas to LSCO's Health Professions programs. The programs are built to meet the needs of the local health care community while creating high wage/high demand career prospects for our students. Current programs offered through LSCO's Health Professions department are: Medical Assisting; Dental Assisting; Emergency Medical Services; Pharmacy Technology; Transition Registered Nurse; and Vocational Nursing.

(3) (a) Major Accomplishments to Date:

LSCO has added short certificates and degrees within programs to allow students the opportunity to stack credentials that lead to high wage and high demand jobs. An AAS in Pharmacy Technology Management has been created to train pharmacy technicians to acquire entrepreneurial skills that will assist them in their career endeavors. In fall 2025, the program received a two-year extension of its accreditation and increased enrollment 156% in Spring 2026.

The Medical Assisting program is a dual credit option for students interested in pursuing a healthcare major that affords students three separate healthcare licensing opportunities. It increased enrollment 205% beyond the spring 2025 to Spring 2026.

The Emergency Medical Services Program incorporates the Emergency Medical Technician and Intermediate Emergency Medical Technician certifications. EMT enrollment increased 205% between spring 2025 and spring 2026.

The Texas Board of Nursing granted Lamar State College Orange approval to add an associate degree Nursing (standalone nursing) program and a Dual Credit Vocational Nursing program that was launched during the 2024-2025 academic year. During 2025, LSCO's Registered Nursing program licensure pass rates of 88.24% exceeded the national average pass rates of 86.71%.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

787 Lamar State College - Orange

LSCO will graduate the first cohort of the Vocational Nursing program and the Transition to Registered Nursing program at the TSUS Polk County Center in Livingston, Texas. Additional cohorts of both nursing pathways will be admitted and increase access to nursing education in the rural areas of East Texas.

The Dental Assisting program will seek accreditation through the Commission on Dental Accreditation. Students will pursue the national certification with the Dental Assisting National Board.

LSCO is in the process of seeing accreditation for our Paramedic program through the Commission on Accreditation.

LSCO's Massage Therapy program will continue to expand, relocating to Lumberton, Texas. The program's success is expected to continue after the most recent cohort of graduates had a 100% licensure pass rate.

LSCO's newly developed Physical Therapy Assistant Program will undergo accreditation through the commission on Accreditation in Physical Therapy Education (CAPTE) in preparation of a 2027-2028 program launch.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

None

(5) Formula Funding:
Students enrolled will qualify for formula funding.

(6) Category:

Instructional Support

(7) Transitional Funding:
N

(8) Non-General Revenue Sources of Funding:

None

(9) Impact of Not Funding:

New course and program development will not be possible without the funding of this non-formula support. Faculty, equipment, and supplies are needed to support each major plan noted for the next two years. Restricted funding will adversely impact LSCO's access to high-fidelity simulation equipment that provides high quality alternative training opportunities in nursing, dental assisting, and EMT programs during this time of limited clinical access.

(10) Non-Formula Support Needed on Permanent Basis/Discont

No

787 Lamar State College - Orange

(11) Non-Formula Support Associated with Time Frame:

N/A

(12) Benchmarks:

When programs generate formula funding to sufficiently cover program costs.

(13) Performance Reviews:

A local needs assessment completed in Spring 2024 confirmed the ongoing need for all health care professionals in Southeast Texas, including nurses, EMTs, paramedics, pharmacy technicians, and medical assistants. Health Care occupations continue to be the fastest growing sector for the Southeast Texas workforce development area and Health Care and Social Assistance is currently predicted to be the sector with more growth in the future.

Faculty salaries and program expenses, along with enrollment and employment data from the comprehensive local needs assessment were included in the overall programmatic analysis. Prominent findings were the faculty needs: Nursing programs (both vocational and registered) have a dire need to hire at least 5 faculty for the program's expansion and the implementation of the standalone RN program (the associate's degree nursing). Additionally, the Paramedic Program needs an additional faculty member to lead the program as well as a medical director to oversee the program. The needed faculty roles can be considered with the additional funding.

The physical therapy, dental assisting, and paramedic accreditation processes will cost around $10,000 apiece. This expenditure can be considered with the additional funding.

787 Lamar State College - Orange

Institutional Enhancement (Academic and Student Support)

(1) Year Non-Formula Support Item First Funded:	2000
Year Non-Formula Support Item Established:	2000
Original Appropriation:	$1,099,987

(2) Mission:

Non-formula support item funding is used to supplement faculty salaries and other institutional operating costs for various vocational and technical training programs. This non-formula support item has assisted the institution in providing needed funding so the College can deliver necessary instruction, purchase equipment and support the needs of the new programs. A reduction in these funds will result in the reduction of class offerings, instructional equipment purchases, professional development for faculty, and scholarship aid to students.

(3) (a) Major Accomplishments to Date:

The institutional Enhancement appropriation is used to fund faculty salaries and support related instructional costs for classrooms. Due to expanding course offerings in Industrial Technology and Allied Health programs in recent years, these funds are critical to meet additional faculty salary demands. In addition, funds are used to purchase needed equipment.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Due to reduced state appropriations, the college relies upon Institutional Enhancement funding to adequately meet the instructional needs of the campus. These funds will enable the campus to achieve its mission and goals in FY 2028 and FY 2029.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

N/A

(5) Formula Funding:
None

(6) Category:

Institutional Enhancement

(7) Transitional Funding:
N

(8) Non-General Revenue Sources of Funding:

None

787 Lamar State College - Orange

(9) Impact of Not Funding:

Failure to fund this request will severely restrict the ability of Lamar State College Orange to maintain operations and to respond to unique opportunities for expanding educational opportunity. Faculty salaries must be funded as a key component of program operations. It will impair the campus efforts to keep abreast of current technology and implement new programs. It would reduce available financial aid and have a negative impact on student recruitment and retention.

(10) Non-Formula Support Needed on Permanent Basis/Discont

Yes

(11) Non-Formula Support Associated with Time Frame:

N/A

(12) Benchmarks:

N/A

(13) Performance Reviews:

The Institutional Enhancement appropriation is used to fund faculty salaries and support related instructional costs for classrooms. Due to expanding course offerings in Industrial Technology and Allied Health programs in recent years, these funds are critical to meet additional faculty salary demands. In addition, funds are used to purchase needed equipment.

787 Lamar State College - Orange

Maritime Program

(1) Year Non-Formula Support Item First Funded:	2016
Year Non-Formula Support Item Established:	2016
Original Appropriation:	$500,000

(2) Mission:

The mission of the Maritime – Able Bodied Seaman program is to serve the needs of the Maritime industry operating within the Sabine-Neches Waterway and adjacent offshore waters. The Sabine-Neches Waterway is the nation's fourth largest waterway and plays a critical role in transporting petrochemical and military resources. The program provides training for individuals seeking entry level and intermediate level employment in a high wage/high demand, local opportunity in the Maritime industry. The program is also a vital resource in Southeast Texas for professional development opportunities for current employees of local Maritime business and industry.

(3) (a) Major Accomplishments to Date:

LSCO's Maritime Technology Program expanded more than 25% between spring 2025 and spring 2026 semester with training to dual credit students in Beaumont ISD as well as traditional students through a partnership with Venture Global LNG pipeline in Jasper. The program is offered for both adult learners and dual credit students. Each certificate can be completed in one semester for campus students or one year (Fall and Spring semesters) for dual credit students.

A mobile training unit was constructed to provide relevant experiential learning opportunities to LSCO's maritime students as well as process technology and welding students. LSCO created a logistics management program that combines the maritime curriculum with logistics curriculum and has a need for additional faculty to support the new program.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Expand the maritime program curriculum to include a focus on technologies that elevate operational efficiency, safety, environmental stewardship, and compliance with regulations. The shift toward more interconnected, automated, and data-centric maritime operations will create a need for updated and relevant training.

Continue and expand cross-training between maritime and supply chain logistics management to support the growing needs of an industry that has enormous growth potential through 2030.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

None

(5) Formula Funding:
Students enrolled will qualify for formula funding.

(6) Category:

Instructional Support

787 Lamar State College - Orange

(7) Transitional Funding:
N

(8) Non-General Revenue Sources of Funding:

None

(9) Impact of Not Funding:

Failure to fund this request will prohibit growth and eliminate program development progress made thus far by LSCO to meet the local demands of Maritime business and industry. Failure to fund will restrict the ability of LSCO to respond to emerging technologies and shifting careers in the maritime and supply chain industries .

(10) Non-Formula Support Needed on Permanent Basis/Discont

No

(11) Non-Formula Support Associated with Time Frame:

N/A

(12) Benchmarks:

When program generates formula funding to sufficiently cover program costs.

(13) Performance Reviews:

The Maritime program is supported by the Southeast Texas Waterway Advisory Council, the Ports of Orange, Beaumont, and Port Arthur. Several local employers, including Cypress Bayou and Conrad Shipyard guide the Maritime Program as members of the Advisory Committee the US Coast Guard approved curriculum has been identified as a significant aspect of the program since students can earn credentials recognized by employers.

787 Lamar State College - Orange

Technical Program Support

(1) Year Non-Formula Support Item First Funded:	2028
Year Non-Formula Support Item Established:	2028
Original Appropriation:	$750,000

(2) Mission:

The mission is to support the development of technical training programs in the College's newest site, Livingston, Texas. Located in a very rural area of Polk County and East Texas with unreliable access to internet services, LSCO will provide access to individuals seeking post-secondary educational opportunities who would otherwise be forces to commute more than 45 miles via single-lane country roads that are regularly subject to closure and detours created by construction repairs, accidents, and flooding.

(3) (a) Major Accomplishments to Date:

The Livingston site was acquired in FY 2023 as a shared location between Lamar State College Orange, Lamar State College Port Arthur, and Lamar Institute of Technology. The colleges have recently hired three fulltime staff members, one parttime staff member, two faculty members, and there are several other open positions that will be filled in the near future.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The colleges expect to hire additional faculty and staff and continue offering courses in areas such as nursing, healthcare services, fabrication and manufacturing, criminal justice, and public service.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

None

(5) Formula Funding:
Students enrolled will qualify for formula funding.

(6) Category:

Instructional Support

(7) Transitional Funding:
N

(8) Non-General Revenue Sources of Funding:

None

787 Lamar State College - Orange

(9) Impact of Not Funding:

The college will not be able to serve the educational needs of Polk County and East Texas as needed in the Livingston area.

(10) Non-Formula Support Needed on Permanent Basis/Discont

Yes

(11) Non-Formula Support Associated with Time Frame:

N/A

(12) Benchmarks:

N/A

(13) Performance Reviews:

Continue offering needed programs from the Livingston location and adjust program offerings to the needs of the students in the area.
